CONFERENCE HERE OVER TROLLEY STRIKE

Business men of the city in this section affected by the strike of the Shore Line Trolley employees are to be called to a conference at the town hall in this city to see if they can evolve some solution of the situation which has deprived Eastern railroad of trolley service for three days now and promises to continue the same situation indefinitely.

Alton T. Miner of London, president of the Connecticut Chamber of Commerce, has made the move to have the meeting here sending out invitations to the members of New London, Norwich, Willimantic and Putnam and the Chambers of Commerce of the same places. The following was the invitation received here Friday afternoon:

Harford, Conn., July 18, 1919.
Louis M. Cranfill, Secy. Norwich Chamber of Commerce.

I am instructed by President Miner of the Connecticut Chamber of Commerce to call a meeting at the town hall, Norwich, tomorrow (Saturday) at 10 o'clock to consider the situation of the public to the trolley (trolley and the future of the lines. Please arrange for such representation of your Chamber as you desire.

WALTER S. CHANDLER, Executive Secretary.

President Frank J. King of the Norwich Chamber of Commerce has invited all the directors as its representatives to attend the conference.

As far as the operation of the cars goes the situation is unchanged and not a wheel has turned for three days now. There has been no defection from the ranks of the strikers as far as known, and the company is still maintaining its attitude of making no attempt to run cars.

Mayor J. Frank Morgan of New London has been in conference with C. C. Elwell of the public utilities commission and has learned from him that the commission has no authority to step in in a matter relating to wages. The commission is prohibited under a certain rule from sitting in judgment or taking action in wage disputes.

Another angle of the trolley men's claim for higher wages was revealed Friday when members of the union stated that under the present operating conditions of the road they are being asked to work under regular wages and a card index made and that they have to pass examination on a list of 186 questions on which they have to get a mark of 75 per cent or over in order to hold their jobs. From their comment they show that they are skeptical that the 9-nation leaders will do this and what the road officials say is not and they have the feeling that one of the chief reasons why the road refuses to arbitrate is because it does not want to produce its figures before the board of arbitration.

How Trolley Wages Compare.
Trolley wages paid or demanded in various cities of the country are shown as follows:

City	Hourly Wage	Maximum Hours per Day
Norwich	42-1-2c	8-1-2c

TELLS EXPERIENCES IN THE "LOST BATTALION"

The first of a projected series of weekly social events where the men of Norwich will meet the soldiers and sailors and ex-service men at the Army and Navy club on Broadway under the auspices of the "Lost Battalion" community service was held Friday night. The attendance of about 30 was considerably smaller than it would doubtless have been with pleasant instead of rainy weather.

The programme opened with a number of well rendered selections by a quartette for the East City, consisting of James J. Moore, George Clune, William Lund and Horace Corning for whom Miss Ella Potter was accompanist.

H. R. Branche, community organizer, who has charge of the war camp community service in this city and New London, described what it aimed to do and was doing in these two cities and on Fishers Island in giving the boys homelike atmosphere in which to spend their spare time.

Frederick W. Cary, chairman of the advisory committee, and John A. Lee, treasurer, also spoke, the former expressing a welcome on behalf of the
